

Electrical Technology Program

The Electrical Technology program prepares individuals to install, operate, maintain, and repair electrical systems. These systems include residential, commercial, and industrial wiring,

motor controls, and electrical distribution panels. The program offers hands on training, helping to gain an understanding in the electrical industry, which helps to prepare one to begin a career in this great field.

*Must have a minimum ACT composite score of 14
Must meet requirements for Intermediate Algebra*

ANDY CAIN
ELECTRICAL INSTRUCTOR, WESSON CAMPUS
